

Sandy Dog Puppeteer

We are unable to have a real dog on stage to play the part of Sandy the dog. Therefore, we will need to use a puppet dog that will need a puppeteer to 'bring it to life'.

The puppet is operated by a handle to hold the body and one to move the head (see *pictures*).

This puppeteer role would possibly suit a young boy, but anyone can apply. Whoever it is, they will need to make the dog puppet appear as real as possible.
